

# REEDMAN SERVICES LTD

Specialist Aquatic Weed Control Equipment and Services

## WeedRazer

The Weed Razer's unique design, makes it the most cost effective, efficient and environmentally friendly tool for cutting aquatic weeds like milfoil, hydrilla, elodea, lily pads, etc.

Using the Weed Razer is a simple 4-step process:

1. Give it a toss
2. Let it sink
3. Retrieve with a short, jerking actions
4. Repeat

Weighing less than 8 pounds, it is light enough to toss 30 feet or more, yet heavy enough to sink to the bottom. The Weed Razer clears a path of 4 feet wide with each throw.

Because the Weed Razer slices weeds at their base, there is little resistance, unlike tools that drag and tear the weeds.

Product # WRZ09

Dimensions and Weight			
Weedrazer Box	5 x 3 x 34	9	lbs
Weedrazer Case	11 x 11 x 35	58	lbs

Descriptive Packaging

## WeedRaker

The light weight Weed Raker is the perfect match to the Weed Razer, it quickly and easily removes cut vegetation from the waters surface, which reduces weed re-growth!

The Weed Raker is the longest and widest aquatic lake rake avail-able.

The Weed Raker also does a great job removing roots plus organic matter at the bottom of your ponds or lakes that fuel weed re-growth!

The Weed Raker has a four section handle that snaps together giving you up to 11' feet of reach. It features a 37" inch head and 8" high strength composite tines. Weighing less than 7 lbs., the Weed Raker is also designed to be tossed into the water with a simple underhand motion and is retrieved via 43' of nylon rope.

Product # WRK09
